## ACCOUNT DISCLOSURE

EFFECTIVE DATE: August 27, 2020

All information on this disclosure is accurate for the effective date listed above. Current interest rates and annual percentage yields are available by calling our Customer Service Center at 1-800-522-4167. You may also find rate information on our website <https://www.columbiabankonline.com>. All deposits of cash and non-cash (for example, checks) into interest bearing accounts begin earning interest from the day of deposit to the date of withdrawal as long as the minimum balance requirement is maintained. We use the daily balance method to calculate interest on all interest bearing accounts, applying a daily periodic rate to the principal balance in the account each day. The interest rates and annual percentage yields on all variable interest rate accounts may change daily. Promotional rate certificates are available only at promotional branches. Promotional rate certificates and Advantage Plus (AP) certificates will only receive the promotional or AP rate of interest for the initial term of the certificate unless the Columbia Bank Pricing Committee elects to continue this promotional rate or AP rate for the same term at maturity at the branch the certificate was opened.

Interest rates are not tied to any index. They are established at the discretion of the Columbia Bank Pricing Committee. The interest rates on all fixed rate accounts will be paid up until the date of maturity. For savings certificate accounts that compound interest, the annual percentage yield assumes interest will remain on deposit for a full year. A withdrawal will reduce earnings. The minimum amount to open a variable rate interest bearing account is \$1.00. The minimum to open a non-interest bearing account is \$ 0.01. The minimum to open any fixed rate certificate account is the same daily minimum to earn the annual percentage yield. Additional deposits to fixed rate savings certificates may only be made during the grace period. Only interest that has been credited to your certificate account during the current term may be withdrawn.

### VARIABLE RATE INTEREST BEARING ACCOUNTS

+ When a new Kids Count Account (passbook or statement savings) is opened, we will match the initial deposit up to \$15. The matching bonus will be credited to the new account at account opening. There is no time requirement for the initial deposit to remain in the account in order to receive this bonus. The amount of the bonus will be added to any interest that is earned on the account. If the amount of the bonus plus interest is \$10 or more in a calendar year, then the amount will be reported on IRS Form 1099-INT. This bonus offer may be discontinued without prior notice. There is a limit of one bonus per child. Within 60 days of the child who is the owner of the Kids Count Passbook or Kids Count Statement Savings Account reaching the age of eighteen (18), the account will automatically be converted to the Bank's regular corresponding passbook or statement savings account and subject to the terms and conditions of that account.

\* Quarterly interest is credited at the close of business on the last day of the quarter and is available to be withdrawn the following business day. Certificate of Deposit interest is also credited at maturity. If you close your variable rate interest bearing account before interest is collected, you will not receive the accrued interest. Monthly interest is credited at the close of business on the last day of the month and is available to be withdrawn the following business day.

\*\* If the balance goes below the daily minimum balance at any time during the monthly statement cycle, the applicable monthly service charge will be imposed.

\*\*\* The penalty for a premature withdrawal during the initial or any subsequent renewal term will be at the rate being paid on the account, regardless of the length of time the funds have remained on deposit. Any withdrawal which reduces the account balance below the initial /renewal balance shall be considered as a withdrawal of the entire account balance.

\*\*\*\* All fixed rate savings certificates provide for automatic renewal unless at least 5 days for 7-28 day CDs or at least 10 days (for all other CDs) prior to the maturity date Columbia gives written notice to the account holder that the account will not be renewed. In such event, upon maturity, the account will be converted to a variable rate savings account and receive earnings at the interest rate then paid on variable rate savings accounts. The 7-28 day certificate has no grace period. The grace period for all other certificates is seven days from the date of maturity. During the grace period, funds can be withdrawn without penalty and will earn interest at the rate Columbia Bank is offering on the maturity date on certificate accounts for that term.
